Recognized for significant contributions in waste management

• The PQS award is part of Intel's Supplier Continuous Quality Improvement (SCQI)

program that encourages suppliers to strive for excellence and continuous improvement

- **Suppliers must score 80 percent on a report card** that assesses performance and ability to meet cost, quality, availability, technology, environmental, social, and governance goals

"The dynamic nature of our business necessitates continuous improvement and an unrelenting focus on quality," said Jacklyn Sturm, Vice President of Technology and Manufacturing Group and General Manager of Global Supply Management at Intel. "As Intel transitions to become a more data centric company, our award winning supplies are embracing the most difficult challenges with rapid innovation and bold strategies."

Congratulations

John Dyer Named VPP Mentor of the Year in Region 3

Award includes nomination for National Mentor of the Year

Through the hard work of dedicated volunteers, the OSHA Voluntary Protection Program (VPP) works to promote effective worksite based safety and health at jobsites across the country.

John Dyer of Veolia was recently awarded Mentor of the Year in Region 3 for volunteering his time to travel across the country and assist in training employees, auditing facilities, and providing recommendations on how companies could obtain VPP certification.

Join us in congratulating John on his accomplishments and wishing him luck at the national award ceremony in September.

Regulatory Updates

- **EPA Hazardous Waste Management System;** User Fees for the Electronic Hazardous Waste Manifest System and Amendments to Manifest Regulations; Final Rule
- **EPA National Emission Standards for Hazardous Air Pollutants:** Off-Site Waste and Recovery Operations; Final Rule

Smoke and Carbon Monoxide Alarm Safety Tips

Test your smoke alarms at least once a month

If a smoke alarm is battery operated, replace the batteries at least once a year to make sure the alarm will work when it is needed. Always follow the manufacturer's instructions for testing smoke alarms and replacing batteries.
